

Local vegbox grown in Fordingbridge

We run a smallholding on the outskirts of Fordingbridge which has been taking shape over the past 8 years. This year we would like to trial a limited number of vegboxes to locals who want affordable organically grown produce.

We have never done this before so this is a trial, and is why we are starting small. We are offering a small weekly home delivered vegbox for £5. Obviously if you would like a larger box then we can double up.

We cannot guarantee how long we can offer these boxes for as we are dependent upon the weather (and a lack of predators) for our produce so we hope you will be understanding of this. We anticipate the first deliveries being mid to late July. We truly hope you will enjoy what we supply, and if this is successful we will look to scale up next year.

For further information or to order a trial vegbox then please email:
